

**VISION E-LINE**  
INFRA-RED REMOTE CONTROL

THE RED 'X' IS WHERE THE INFRA RED RECEIVER IS LOCATED. THIS IS THE OPTIMUM SPOT TO POINT THE HANDSET.

WHILST STANDING AWAY FROM THE APPLIANCE, POINTING ANYWHERE WITHIN THE GREEN BOX WILL STILL REACH THE RECEIVER.

POINTING ANYWHERE OUTSIDE OF THE GREEN BOX MAY RESULT IN POOR SIGNAL RECEIPT AND NON-COMMUNICATION BETWEEN THE HANDSET AND THE APPLIANCE.
